

QUALITY ASSURANCE ANALYST II

The Teachers' Retirement System is seeking applicants for a Quality Assurance Analyst II. Position will serve as a team member of cross-functional teams on multiple projects, ranging from bug fixes and system enhancements to new system selection and implementation; lead and support the development of test and deployments plans; may serve as a Scrum Product Owner or Scrum Master. Bachelor's degree in Computer Science, Information Technology, or other related field of study is preferred. Equivalent job experience that is directly related to the position may be substituted. Requires a minimum of three years of progressively responsible experience in a quality assurance testing role including writing and executing test plans and test cases. Experience with test automation tools and testing in Agile/SCRUM environments preferred.

Send resume and cover letter postmarked
